### ***Allowable Subject Matter***

Claims 45-51 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach polling the user inputs to detect user activation of an interface device; creating, upon detection of the user's activation, an action structure that includes status tags to mark structures; accumulating the action structure in a database; searching the accumulated action structures to detect sequences capable of being processed into an interactive custom accelerated procedure (ICAP); and generating the ICAP to automate the detected sequences, in combination with all of the other claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
